## ACKNOWLEDGMENTS

Special recognition should be given to the following individuals for their efforts in coordinating and preparing the 1989-90 Budget.

Office of Financial Management & Budget (in alphabetical order):

Michelle Adkins . . . . . Budget Analyst  
Verdenia Baker. . . . . Budget Analyst  
Wanda Bergeron . . . . . Assistant Budget Director  
Elizabeth Bloeser . . . . . Budget Analyst  
Steven Bordelon . . . . . Budget Director  
Carlos Cerezo . . . . . Budget Analyst  
Marilynn Clark . . . . . Accountant II  
Ann Conlin. . . . . Budget Analyst  
Shirley Holder . . . . . Applications Specialist  
John Long . . . . . Special Projects Director  
Anita Martinetto . . . . . Fiscal Clerk  
William McCaffrey . . . . . Sr. Systems Analyst  
John McCall . . . . . Budget Analyst  
Michael Meredith . . . . . Budget Analyst  
Barbara Nelson . . . . . Secretary  
Linda Presz . . . . . Sr. Financial Analyst  
Rebecca Webb . . . . . Grants Analyst  
David D. Wood . . . . . OFMB Director

Special thanks to:

Vincent Bonvento, Deputy County Administrator, for his role as budget liaison.

Management Section (OFMB) for their work in developing performance measures and county comparables.

Department heads and Staff who spent many hours compiling, preparing and revising their respective budgets.

June 30, 1989

The Honorable Carol J. Elmquist, Chairman  
and Members of the Board of County Commissioners

**Commissioners:**

In accordance with Florida Statute 129.03(3), I am transmitting the Tentative 1989-90 Budget for your consideration. After the Board of County Commissioners has completed its review, a final budget will be recommended for adoption at the second Public Hearing on September 25, 1989.

The recommended 1989-90 Budget is approximately \$1.207 billion, which represents an increase of approximately \$86 million, or 7.7% over the current fiscal year. Subtracting double budgeted interfund transfers, the net budget is \$1.046 billion compared to \$994 million for FY 1988-89. The net operating budget, minus capital, is approximately \$501.2 million, or 13.5% over the FY 1988-89 net operating budget of \$441.6 million. Adjusting for the effects of inflation and population growth, the real percentage increase in the net operating budget is 5.4%.

Funding sources for the recommended budget are summarized as follows:

**Funding Sources (In Millions)**

	<u>1988-89</u>	<u>1989-90</u>	<u>Increase (Decrease)</u>	
			<u>\$</u>	<u>%</u>
Property Taxes				
Countywide	\$ 197.4	\$ 225.4	\$ 28.0	11.4 *
Dependent Districts	47.5	48.0	.5	1.1
Subtotal	244.9	273.4	28.5	11.6
State and Federal Grants	87.4	92.7	5.3	6.1
Fees and Charges	145.1	189.3	44.2	30.5
Other Revenues and Receipts	202.1	226.0	23.9	11.8
Internal Service Charges	30.9	36.3	5.4	17.5
Carry Forward Balances				
Governmental	301.7	278.7	(22.9)	7.6
Enterprise	109.0	111.0	2.0	1.8
Total County Budget	\$1,121.2	\$1,207.6	\$ 86.4	7.7

\* In comparison to roll back, the increase over 1988-89 property taxes is 8.15%.

"An Equal Opportunity - Affirmative Action Employer"

BOX 1989 WEST PALM BEACH, FLORIDA 33402-1989

In Fiscal Year 1989-90, the County will begin collecting the new impact fees approved by referendum in November, 1988. These fees, which will partially fund costs associated with law enforcement, libraries, parks, public buildings and fire-rescue services are projected to total \$10.3 million. Increases in the existing road impact fee are expected to generate an additional \$10 million.

The Comprehensive Plan has identified utility taxes as a revenue source used by municipalities covering 95% of city residents in Palm Beach County. Enacting the Utility Tax will help relieve the pressure to increase ad valorem taxes and, in my opinion, presents a more equitable approach to funding the costs of government. The 1989-90 budget proposal includes \$25 million for Utility Taxes; based on updated projections, this amount may increase prior to final adoption of the budget.

#### Millages and Property Taxes

##### Countywide

The Budget includes estimated ad valorem tax revenues based on a recommended countywide millage of 5.1482. The proposed countywide millage rate is an increase of less than one tenth of one mill above last year's rate of 5.0562 mills. In accordance with "TRIM" requirements, the Budget reflects an 8.15% increase over roll back, roughly a one-half mill increase over the prior year levy.

For a typical single-family home assessed at \$100,000 with a \$25,000 homestead exemption, the Countywide property taxes on the remaining \$75,000 taxable value will increase by \$6.90, or 1.8%. Overall property evaluation in Palm Beach County increased by approximately 12% for the 1989 Tax Roll; of this increase, 4% is attributable to new construction. Applying the proposed millage to the increased valuation (\$8,000) of the home used in the example would increase the property tax by an additional \$41.18 as shown in the following calculation:

<u>Countywide</u>	<u>1988-89</u>	<u>1989-90</u>	<u>Increase</u>	<u>% Change</u>
Parcel Assessment	\$100,000	\$108,000	\$8,000	8.0
Millage Rate	5.0562	5.1482	.0920	1.8
Property Taxes	\$ 379.22	\$ 427.30	\$48.08	12.7

##### Dependent Districts

The Dependent Taxing Districts consist of the Library District and four Municipal Service Taxing Units (MSTUs) for Fire/Rescue. Recommended millage rates for each taxing district are detailed on page C-21 in the Tentative Budget document.

IN THE COURT OF THE DISTRICT OF COLUMBIA  
IN RE: THE ESTATE OF JAMES EARL RAY, JR.  
JAMES EARL RAY, JR., DECEASED  
BY WILLIAM J. RAY, JR., ADMINISTRATOR  
VS.  
THE UNITED STATES OF AMERICA  
JAMES EARL RAY, JR., DECEASED  
BY WILLIAM J. RAY, JR., ADMINISTRATOR  
VS.  
THE UNITED STATES OF AMERICA

THE COURT hereby orders that the following items be included in the inventory of the estate of James Earl Ray, Jr., deceased, to-wit:

1. The sum of \$100,000.00 in cash on hand.

2. The sum of \$50,000.00 in cash on deposit with the Federal Reserve Bank of New York.

3. The sum of \$25,000.00 in cash on deposit with the Federal Reserve Bank of New York.

4. The sum of \$10,000.00 in cash on deposit with the Federal Reserve Bank of New York.

5. The sum of \$5,000.00 in cash on deposit with the Federal Reserve Bank of New York.

### Total County Appropriations

The combined appropriations for all governmental and enterprise fund budgets are presented for comparisons with the prior year as follows:

<u>Expenditure Function</u>	<u>1988-89</u>	<u>1989-90</u>	<u>Increase (Decrease)</u>	
			<u>\$</u>	<u>%</u>
General Government	\$ 142.8	\$ 147.9	\$ 5.1	3.6
Public Safety (Judicial, Law Enforcement, Fire-Rescue)	169.8	195.1	25.3	14.9
Physical Environment (Water Utilities)	148.0	127.9	(20.1)	13.6
Transportation (Airports, Mass Transit, Roads)	236.5	177.5	(59.0)	25.0
Economic Environment (Tourist Development, HCD)	16.7	21.6	4.9	29.3
Human Services (Community Services, Health)	60.1	55.8	(4.3)	7.2
Culture and Recreation (Library, Parks & Recreation)	66.5	82.8	16.4	24.7
Internal Services (Motor Pool, Risk Management)	22.7	25.8	3.1	1.4
Debt Service, Transfers and Other	<u>258.1</u>	<u>373.2</u>	<u>115.1</u>	<u>44.6</u>
Total	\$1,121.2	\$1,207.6	\$ 86.4	7.7

Summarized expenditure categories include annual operating costs and capital improvement requirements.

The number of permanent employees under the Board of County Commissioners increased by 270 to 4,747. This represents 5.4 employees per thousand County population compared to 5.3 per thousand in 1988-89.

### Budget Development Process

The 1989-90 budget development process began in January of 1989 when County Departments were requested to update the narrative describing their functions, goals, and accomplishments. During February, the County Administrator issued a Budget Policy Statement and the Budget Instruction Manual was distributed to all County departments and agencies. All budget submittals were due in the Office of Financial Management and Budget (OFMB) by mid April. The Budget Office then scheduled departmental budget hearings beginning the last week in April and extending into June. On May 30, 1989, a workshop was held with the Board to provide a preview of the 1989-90 budget and to obtain Board direction regarding several budget related issues.

### Total County Appropriations

The combined appropriations for all governmental and enterprise fund budgets are presented for comparisons with the prior year as follows:

<u>Expenditure Function</u>	<u>1988-89</u>	<u>1989-90</u>	<u>Increase (Decrease)</u>	
			<u>\$</u>	<u>%</u>
General Government	\$ 142.8	\$ 147.9	\$ 5.1	3.6
Public Safety (Judicial, Law Enforcement, Fire-Rescue)	169.8	195.1	25.3	14.9
Physical Environment (Water Utilities)	148.0	127.9	(20.1)	13.6
Transportation (Airports, Mass Transit, Roads)	236.5	177.5	(59.0)	25.0
Economic Environment (Tourist Development, HCD)	16.7	21.6	4.9	29.3
Human Services (Community Services, Health)	60.1	55.8	(4.3)	7.2
Culture and Recreation (Library, Parks & Recreation)	66.5	82.8	16.4	24.7
Internal Services (Motor Pool, Risk Management)	22.7	25.8	3.1	1.4
Debt Service, Transfers and Other	<u>258.1</u>	<u>373.2</u>	<u>115.1</u>	<u>44.6</u>
Total	\$1,121.2	\$1,207.6	\$ 86.4	7.7

Summarized expenditure categories include annual operating costs and capital improvement requirements.

The number of permanent employees under the Board of County Commissioners increased by 270 to 4,747. This represents 5.4 employees per thousand County population compared to 5.3 per thousand in 1988-89.

### Budget Development Process

The 1989-90 budget development process began in January of 1989 when County Departments were requested to update the narrative describing their functions, goals, and accomplishments. During February, the County Administrator issued a Budget Policy Statement and the Budget Instruction Manual was distributed to all County departments and agencies. All budget submittals were due in the Office of Financial Management and Budget (OFMB) by mid April. The Budget Office then scheduled departmental budget hearings beginning the last week in April and extending into June. On May 30, 1989, a workshop was held with the Board to provide a preview of the 1989-90 budget and to obtain Board direction regarding several budget related issues.

During the budget development process, funding requests must survive several levels of review. Department directors make the initial determination as to whether a requested amount is justifiable. Then the Budget Division staff subjects the budget submittals to an in-depth review. The analysis includes:

- . familiarization of departmental functions, program plans and goals, accomplishments, and workload statistics;
- . verification of mathematical accuracy of salary and other calculations;
- . comparison of 4 year historical spending patterns, including projections of current year expenditures;
- . identification of nonrecurring expenditures;
- . review of detailed budget worksheets and backup for consistency, completeness, and reasonableness of justification; and
- . meeting with departments and administration to finalize the County Administrator's recommendations.

Initial requests in the tax supported portion of the budget exceeded our roll back revenues by approximately \$80 million. Through the above review process, more than \$60 million in requests were eliminated.

#### New Positions and Service Improvements

Outlined below are the major areas which are recommended for increased funding from ad valorem taxes or tax equivalents (e.g., utility taxes, franchise fees).

#### Roads

Approximately \$20.8 million in ad valorem taxes will be used to fund the road program during 1989-90. This amount, which represents an \$11 million increase in funding over 1988-89, will construct approximately 23.2 lane miles. Taking into account construction funded from road impact fees, carry forward funds, and developer requirements, total lane miles to be constructed during 1989-90 will approximate 60 lanes miles. During the May workshop, the Engineering Department disclosed a shortfall in the amount budgeted for acquiring rights-of-way. The Engineering and Public Works Department believes we can close this shortfall over two years and still remain on target with our 5-Year Road Program.

### **Sheriff**

The Sheriff has requested \$99.7 million for his 1989-90 Budget. This amount is almost \$14 million, or 16.3%, over the 1988-89 budget. Most of the budget increase (about \$13 million) is due to increased personnel costs. The Sheriff's budget request includes funding for 126 new positions as well as substantial increases related to fringe benefit costs. State mandated increases for special risk retirement contributions and the health care benefits for retirees combined to raise the retirement contribution by almost \$3 million. Health insurance costs are projected to escalate by almost \$800,000 and workers compensation claims are anticipated to increase by \$372,000.

The proposed budget also includes the cost of leasing 184 vehicles, or 35 more vehicles than were funded in 1988-89.

### **Judicial**

Costs associated with the courts, Public Defender, and State Attorney will increase by \$3.8 million, or 54%, over the current year. Cost increases are driven by the temporary relocation of the County Court, the addition of four new judges along with support staff and equipment, and upgrading computer automation capabilities.

### **Fire-Rescue**

The Fire-Rescue operating budget is up by more than \$10 million, or about 30%, over FY 1988-89. This increase is largely attributable to escalating personal services costs, including the addition of 18 new employees and the impact of pension costs for high risk employees, disability health insurance, and salary increases. The Department also has requested supplemental funding for upgrading its communication system.

In the Capital Budget, the Department has requested approximately \$1.7 million for new/replacement equipment and vehicles, \$500,000 for design of the Fire-Rescue Complex at Section 6, \$123,500 to install an emergency traffic signal, and \$25,000 for land acquisition.

### **Planning, Zoning and Building**

Increases to the P Z & B budget total approximately \$3.9 million, or an increase of 28.2% over the current year funding level. Cost increases are primarily result from the addition of 54 positions associated with the implementation of the Comprehensive Plan and increased emphasis on building inspection and code enforcement. The P Z & B budget recommendation also includes \$500,000 for hiring consultants to assist in implementation of the Comprehensive Plan; \$150,000 to contract out a portion of the microfilming backlog; and almost \$111,000 to lease-purchase 20 vehicles for building inspectors.

For the first time, the planning and zoning functions will be supported by tax equivalents. About \$6.3 million in franchise fee and utility tax revenues will be used for this purpose.

#### **General Services**

The recommended budget for this Department is \$3.8 million higher than the current year primarily due to 24 new positions associated with the maintenance and security of new County facilities. Funding for Motor Pool vehicles and equipment is recommended to be increased by about \$600,000 over the current funding level.

The Capital Budget contains \$417,000 for South County Courthouse improvements, \$156,000 for a new telephone system for South County Courthouse, and \$555,000 for various roof repairs and replacements,

#### **County Library**

Twenty-two new positions and new books account for \$825,000 of the recommended increase in the Library budget. Overall, the Library budget is going up by \$1.67 million, or 16.5% over 1988-89.

New funding (\$1 million) for the Library's expansion program is derived from interest earnings. Impact fees are estimated to bring in \$850,000; of which \$300,000 is budgeted for a branch library in South Bay and the remaining \$550,000 is reserved for future projects. Property taxes will fund a new lift station for the Central Library (\$25,000) and various roof repair projects (\$145,000).

#### **Environmental Resources Management**

The operating budget for the Department of Environmental Resources Management is recommended to increase by approximately \$705,000, or 23.8% over the 1988-89 budget. Sixteen new positions are being recommended for the Department, largely because of work requirements related to the County's Comprehensive Plan. Four positions are for the shoreline protection program; four are for the environmental enhancement program; four to implement a natural areas program; one to develop and manage inventory of nature ecosystems; two to implement a stormwater management program; and one to provide administrative support for the department.

The Capital Budget includes \$583,000 for environmental cleanup.

#### **Parks and Recreation**

The budget recommended for the Parks and Recreation Department includes an increase of approximately \$1.5 million, or 9.9%, over 1988-89. This increase will fund seven new positions as follows: a new planner to

For the first time, the President and his family will be attending the inauguration ceremony. The President will be sworn in on January 20, 1961.

The President will be sworn in at the Lincoln Memorial in Washington, D.C. The ceremony will be held at 11:00 a.m. on January 20, 1961. The President will be sworn in by Chief Justice Earl Warren.

relieve the accelerating workload associated with the park development program; two positions associated with Carlin Park expansion and one for Caloosa Park, a secretary to help with administrative work demands; and two maintenance positions - one for Pondwood Park and a small engine mechanic for the maintenance shop.

The Capital Budget proposes \$677,000 in ad valorem taxes for parks and recreation improvements, including \$175,000 for Aqua Crest Pool repairs, \$100,000 for a boat ramp at Juno Park, and \$75,000 for tennis courts at Loxahatchee Groves Park.

#### **Community Services and County Health Department**

The 1989-90 Capital Improvement Budget includes \$100,000 for the Central Pharmacy relocation and expansion and \$565,000 for the Delray Public Health Center. In addition, the County Home is budgeted for a new laundry building (\$75,000), a new lift station (\$32,000), a new telephone system (\$85,000) and air conditioning replacements (\$29,000).

#### **Public Buildings**

The Capital Budget includes ad valorem funding requests for public building projects totalling about \$3 million. Included in this amount is approximately \$1.5 million additional funding for a new Animal Care Facility, \$800,000 for renovations to the Governmental Complex and the ground floor of the parking garage, \$366,000 for renovations to the Four Points Building, \$255,000 for expanding the Motor Pool facility, \$250,000 for renovating the old Berean Baptist Church, \$205,000 for master site studies, and \$150,000 for the Emergency Operations Center.

#### **Data Processing Costs**

One of the Board's goals is to improve the utilization of computers in County government. My recommended budget reflects a commitment to this goal. The Board of County Commissioners share of AIM's budget is proposed to increase from approximately \$6.6 million in 1988-89 to \$8.4 million for 1989-90. This amount represents a 27.6% increase over the 1988-89 budget. Additionally, \$500,000 has been reserved to fund costs associated with connection to and usage of the new general ledger system, \$625,000 is recommended to upgrade the payroll/personnel system, and \$300,000 is requested to improve office automation capability.

#### **Affordable Housing**

In response to the Housing Element policies approved in the Comprehensive Plan, I am recommending \$3 million in ad valorem funding be provided for the Affordable Housing program. This funding level will be supplemented by approximately \$1 million in grant funds available in the Housing and

# Case History

On 10/10/1991, the patient was referred to the clinic by the General Practitioner (GP) with a diagnosis of 'Depression'. The patient is a 45-year-old female, married, with two children, aged 12 and 15. She has been experiencing symptoms of depression for approximately 18 months. The symptoms include persistent sadness, loss of interest in her usual activities, significant weight loss (approximately 10% of body weight), and insomnia. She has also reported thoughts of self-harm and suicide, which have led to her being admitted to hospital on two occasions. The patient has a history of anxiety disorders and has been treated with antidepressants and anxiolytics in the past. She is currently taking a combination of antidepressants and is attending the clinic for ongoing support and monitoring. The patient's GP has recommended that she continue with her current medication and attend the clinic regularly. The patient is motivated to seek help and is committed to working with the clinic to manage her condition.

Community Development Division, but the combined \$4 million is still below the \$5 million funding level identified in the Comprehensive Plan. Rationale for recommending this funding level is based on the opinion of the Housing and Community Development Division that the County would not be able to spend \$5 million in the first year of the expanded program.

#### Camden Case Legal Settlement

During February, 1989, the U. S. District Court, Southern District of Florida ruled, in response to a class action suit, that the County is liable for payment of interest on deposits placed with the Clerk of the Court. A reserve for legal settlement has been budgeted for \$3 million.

#### Unfunded Items

Due to funding constraints, it has been necessary to deny numerous funding requests which could improve or increase the level of County services. Operating budget requests submitted by tax funded departments totalled about \$547.4 million and the original requests for capital projects amounted to \$36 million. During the budget reviews, \$34 million was cut from the operating budget and \$32 million in capital projects were deferred or eliminated. Some of these excluded items are listed below:

#### Operating Budget

Indigent Health Care	\$15,994,000 *
Health Department	7,980,249 *
Payments for Prescriptive Medicines	2,916,000 *
Affordable Housing Program	2,000,000
Environmental Resources Management - 13 positions	556,510
Property & Real Estate Management -	
5 positions for facilities planning	228,042
Digitize drawings and update studies	330,000
Traffic Division - 5 positions	260,387
Traffic Division - Materials	473,209

#### Capital Budget

Road Program	12,971,000
Stub Canal Drainage Project	5,000,000
North County Pool Construction	1,500,000
Central Library Entrance Relocation (Driveway)	161,000
Youth Affairs - Sabal Palm Expansion	250,000
Medical Examiner Facility Expansion	250,000
North County Govt. Center Expansion	250,000
County Home - Various Capital Improvements	604,000
North County Senior Center Expansion	250,000
Stockade - Land Acquisition for Parking	300,000
Indian Trail Water Control Dist.- Orange Ave.	250,000

\* Transferred to Palm Beach County Health Care Taxing District.

Conclusion

In the preparation of this year's budget, we received very clear community input and policy direction. More than one hundred citizens who assisted in preparing the blueprint for our future, the Comprehensive Plan, identified expense levels and revenue sources. The recommended budget is \$7.5 million, or two-tenths of one percent, above the projections in the Comprehensive Plan. This increase is due to the unanticipated higher acquisition costs for road rights-of-way (\$22.5 million), the Attorney General's opinion restricting the use of building permit fees (\$6.3 million) and the settlement of a lawsuit (\$3 million).

It is very important to note that starting in 1989, due to the Growth Management Act, cities and counties will no longer be able to underfund the infrastructure and operating costs of new growth, unless their comprehensive plans are amended to reflect a lower level of service, which really means a lower quality of life. It was widely recognized when the Growth Management Act was adopted that local funding sources are inadequate to meet this new State mandate. In fact, according to the State's projections, Palm Beach County would experience the greatest growth and the largest unfunded infrastructure costs. The failure of the State this past session to address these revenue needs places an enormous burden on local governments, and therefore, on property taxes. As we move forward with construction of the courthouse, jail, offices for the State Attorney and Public Defender, and the continuation of the road program - which includes local funding of State highways, the local burden will become more severe each year the State fails to provide new revenues.

Given the constraints we are operating within, I believe the proposed budget is a realistic approach to maintain the level of services we presently have adopted in our Comprehensive Plan.

I would like to thank the Board of County Commissioners, Constitutional Officers and others who participated in the detailed development of this budget, including department directors, staffs of the Constitutional Officers, and especially the Director and the staff of the Office of Financial Management and Budget.

I look forward to beginning our meetings to consider the proposed 1989-90 budget. A line item computer report, showing budget detail by cost center, object of expenditure, and appropriation type, has been provided to the Clerk of the Circuit Court for the official record. Should you have any questions or require additional information prior to the release of the budget document or the beginning of the budget workshops, please let me know.

Respectfully submitted,

  
\_\_\_\_\_  
Jan Winters

## INFORMATION ABOUT PALM BEACH COUNTY

History

Many years ago, when the area comprising Palm Beach County was part of Dade County, an election was held to determine whether the seat of county government should remain in Miami or be moved north. The people in the northern (Palm Beach) end of the county outvoted those in the southern (Miami) end, in favor of moving the county seat to Juno, at the upper end of Lake Worth. Later, when the population of Miami grew sufficient to offset the population of the Palm Beach area, permission was granted for the return of the county seat to Miami.

As legend has it, the relocation of the county seat from Juno back to Miami brought about a mild revolt on the part of our area's residents. On a dark and infamous night, some of our more enterprising citizens raided the new county courthouse in Miami and made a successful retrieval of the records. Unfortunately, as fate would have it, a court injunction caused a return of their "trophies of war."

Palm Beach County is 80 years old this year. When the first Palm Beach County Commission first met on July 6, 1909, the County had a population of approximately 5,500 and was about twice its present size (encompassing parts of what are now Broward and Okeechobee Counties and all of the present Martin County). West Palm Beach, dating from 1894, was the only incorporated municipality in the County.

Primarily a quiet agricultural community at its birth, with a small enclave of winter visitors on Palm Beach, the County experienced a major land boom in the 1920s, again after World War II, and the latest surge in growth which began in the early 1970s.

Our estimated current population is 854,000 with projections of 1.4 million by the year 2020.

Fertile land and a sunny climate, motivating forces for the continuation of agriculture and tourism as two of the County's economic mainstays throughout its 80-year history, have also stimulated the growth of the area's construction industry and influenced major technological firms to locate within our borders, further bolstering the County's population and its tax rolls.

Services Provided

The County provides a wide range of services including law enforcement, fire protection, conservation and resource management, public improvements, libraries, employment opportunity and development, health, welfare, parks and recreation facilities, planning and zoning, transportation and general administrative services.

## PALM BEACH COUNTY

### Form of Government

Palm Beach County is a political subdivision of the State of Florida, governed by the State Constitution and general laws of the State of Florida.

The legislative and governing body of the County is the five-member Board of County Commissioners. Each County Commissioner is elected on a county-wide basis for a four-year term of office and each County Commissioner is a resident of one of five Commission Districts. The Commission elects a chairperson who serves as presiding officer.

Effective November, 1990, the Board of County Commissioners shall be comprised of seven single member districts. This change in the charter was approved by voter referendum on November 8, 1988.

The Clerk of the Circuit Court is the clerk and chief financial officer for the Commission. As a result of a County-wide general election of November 6, 1984, Palm Beach County became a Home Rule Charter County on January 1, 1985, operating under a County Manager form of government with separation of legislative and executive functions. The County Administrator is responsible for the operations of all departments of the County, except the elected Constitutional officers, joint State/County agencies and staff departments that report directly to the Commission.

### Economic Trends

Palm Beach County is Florida's largest county in area, fifth in population and tenth in density. Growth has been the major influencing factor of the County in the last several years. Population has increased 138% since 1970 and the total non-exempt property valuation has increased 71% in the last five years.

Tourism and agriculture, together with the related service industries, are the leading sources of income for the County's residents. The County government is making a concentrated and continued effort to increase the number of visitors to our area each year. The "Glades" region is one of the nation's most productive agriculture areas. Sugar cane and vegetables account for 73% of the total crop production. Manufacturing, primarily electronics and other high tech products, also plays an important role in the County's economy. Over the last ten years manufacturing has accounted for 12% of the total non-agricultural employment. The school system, State of Florida, and the County are the largest employers in the public sector.

### Assessed Valuation

The County's non-exempt assessed valuation for County-wide millage purposes of \$43.7 billion represents an increase of 12% over the preceding year. This is due to the continued growth of property values and the efforts of the Property Appraiser's office to keep all property appraised at 100% of its fair market value as required by state law.

Property tax levies for the Board of County Commissioners for the last five years were distributed as follows: (amounts are per \$1,000 assessed value)

<u>Fund</u>	<u>1989-90</u>	<u>1988-89</u>	<u>1987-88</u>	<u>1986-87</u>	<u>1985-86</u>	<u>1984-85</u>

#### Other

On February 11, 1981, an election was held in which Palm Beach County's blue-collar workers elected the Communication Workers of America to represent them. On May 12, 1981, the Communication Workers of America was certified as sole and exclusive bargaining agent with respect to wages, hours, time and conditions of employment for employees within the bargaining unit. The bargaining unit consists primarily of Palm Beach County's blue-collar workers.

# Palm Beach County Board of County Commissioners Organizational Structure

B-4

BUDGET PHILOSOPHY AND PROCESSPHILOSOPHY

Palm Beach County is committed to providing high levels of service to its residents, at the lowest possible cost, in order to minimize taxpayer burden. In developing the County's financial plan, or budget, attention is first given to assuring that the budget will be in balance, both on an overall basis and in each of the County's funds. Any potential imbalances are eliminated by the County Administrator before the Tentative Budget is presented to the Board of County Commissioners for consideration and adoption at Public Hearings.

PROCESSFiscal Year

Palm Beach County's Budget is based on a fiscal, rather than calendar year. The fiscal year begins on October 1 and ends on September 30. Thus, FY 1989-90 runs from October 1, 1989 through September 30, 1990.

Statutory Requirements

In the State of Florida, county budgets are governed by State Statutes. Chapter 129 of the Florida Statutes, entitled "County Annual Budget", specifically directs that (among other requirements) a budget be prepared annually, and that it must be balanced. It further provides for amendment of the budget in limited circumstances, and prohibits expenditures in excess of budgeted amounts.

Funds Included

The County's budget is consolidated, and presents planned disposition of all available resources in all funds. The total budget is appropriated by the Board of County Commissioners, as the adopted financial plan for the County in the ensuing fiscal year.

Basis of Accounting

The accounts of the County are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts which comprise its assets, fund equity, revenues and expenditures or expenses.

The modified accrual basis of accounting is used for Governmental Funds (General, Special Revenue, Debt Service and Capital Project). Revenues are recognized in the accounting period in which they become available and measurable. Expenditures are recognized in the accounting period in which services or goods are received and liabilities are incurred.

Revenue is considered available when it is collectible during the current period, and the actual collection will occur either (1) during the current period or (2) after the end of the period but in time to pay

current year-end liabilities. Generally, property taxes, grants and interfund transfers are accounted for on a modified accrual basis. Revenue is generally considered to be measurable if it has the ability to provide a reasonable estimate of actual cash flow. Expenditures, for the most part are recorded on an accrual basis because they are measurable when they are incurred.

In Proprietary Funds (Enterprise and Internal Service), the accrual basis of accounting is used. Revenues are recognized in the accounting period in which they are earned and become measurable. Expenditures are recognized in the accounting period in which they are incurred.

The essential elements of the accrual accounting method include the (1) deferral of expenditures and the subsequent amortization of the deferred costs (prepaid expenses, supplies, etc.) (2) deferral of revenues until they are earned (property taxes received in advance) (3) capitalization of certain expenditures and the subsequent depreciation of the capitalized assets (depreciation of the cost of machinery), and (4) accrual of revenues that have been earned and expenses that have been incurred.

#### Adoption Process

The annual budget process is based upon Florida statutory requirements. In February, departments develop revenue projections for the current and budget year, as well as expenditure projections for the current year. These projections are submitted to the Office of Financial Management and Budget (OFMB), which consolidates county-wide projections and determines projected available resources for the budget year.

Departments begin their BUDGET DEVELOPMENT in February also, when the County Administrator issues a "Call for Budget Estimates". Accompanying the Call is a BUDGET INSTRUCTION MANUAL, compiled by OFMB, which provides detailed instructions for development of budget submittals.

Departmental BUDGET REQUESTS are segregated into two components: a) the cost of continuing existing levels of service, i.e., BASE BUDGET, and b) the cost of proposed additions to existing service levels, in the form of SUPPLEMENTAL REQUESTS. Departmental Requests are reviewed by OFMB, and discussed with departments at BUDGET HEARINGS in April and May.

Based on the County Administrator's direction, OFMB prepares the County Administrator's TENTATIVE BUDGET, for presentation to the Board of County Commissioners at the end of June.

Having reviewed the Tentative Budget, the Board holds WORKSHOPS with each department during July, which provides OFMB with direction in developing the ADOPTED TENTATIVE BUDGET, which is made available to the public and forms the basis for the FIRST PUBLIC HEARING in September. Any changes directed by the Board at the first Public Hearing are incorporated into the FINAL BUDGET, which forms the basis for the SECOND PUBLIC HEARING in September.

During the second Public Hearing, the Board amends the Adopted Tentative Budget as it sees fit, adopts the OFFICIAL BUDGET, and adopts a resolution stating the millage rate to be levied.

The Official Budget becomes effective on October 1, per Florida Statutory requirements, and a final Official Budget document is then printed.

Amendments after Adoption

Florida Statutes specifically direct that upon the final adoption of the budgets, the budgets shall regulate the expenditures of the County and the itemized estimates of expenditures shall have the effect of fixed appropriations and shall not be amended or altered or exceeded except as provided by the Statute.

The Board of County Commissioners at any time within a fiscal year may amend a budget for that year as follows:

1. Appropriations for expenditures in any fund may be decreased and other appropriations in the same fund correspondingly increased with the approval of the Board of County Commissioners provided that the total of appropriations of the fund not be changed.
2. Appropriations from the reserve for contingencies may be made to increase the appropriation for any particular expense in the same fund for any lawful purpose but no expenditures shall be charged directly to the reserve for contingencies.
3. The reserve for future construction and improvements may be appropriated by the Board for the purpose or purposes for which the reserve was made.
4. A receipt of a nature from a source not anticipated in the budget and received for a particular purpose, including but not limited to grants, donations, gifts, or reimbursement for damages, may, upon approval by the Board, be appropriated and expended for that purpose, in addition to the appropriations and expenditures provided for in the budget. Such receipts and appropriations shall be added to the budget of the proper fund.
5. Increased receipts for enterprise or proprietary funds received for a particular purpose may, upon approval by the Board, be appropriated and expended for that purpose, in addition to the appropriations and expenditures provided for in the budget.

Florida Statutes provide for the delegation of authority to approve certain types of budget transfers. The Board of County Commissioners has established procedures by which the Director of the Office of Financial Management and Budget may authorize certain transfers which are intra-departmental in nature, such as transfers of appropriations from one line item to another within a given department. All other budget transfers and amendments to the adopted budget must be approved by Board action, at a regularly scheduled Board meeting.

PAINTED BY COULT

PAINTED BY COULT

**BUDGET SUMMARY TOTAL COMPARISON**  
**1988-89 FINAL BUDGET TO 1989-90 TENTATIVE BUDGET**

**What Is The Budget?**

The budget is a plan of financial operations and the proposed means for financing them. It shows the disposition of all resources whether to be spent or not. The term "budget" is used in two senses in practice. Sometimes it designates the financial plan presented to the appropriating body for adoption and sometimes the plan finally approved by that body. It is usually necessary to specify whether the budget under consideration is proposed and tentative or whether it has been approved by the appropriating body. The budget, once adopted, is the legal authorization to expend County funds during the fiscal year. The budget may be amended during the fiscal year by the governing body in accordance with procedures specified by law and/or administrative order.

**Total Budget**

The total FY 89-90 Budget is the amount tentatively recommended by the County Administrator as the Board of County Commissioners' budget. It includes budget transfers from one fund to another and payments from one County department to another for services received.

**Net Budget**

The Net Budget subtracts transfers of money from one fund to another fund or payments from one department to another for services rendered from the legal budget amount. These interfund transfers are considered double-counted because they don't represent money coming into the County budget as revenue or leaving the County budget as expense. Interfund transfers are necessary to reflect movement of money within the legal budget from the fund where they are received to the fund where they are spent.

## PALM BEACH COUNTY

SOURCES OF FUNDS BY CATEGORY  
 TOTAL ALL FUNDS \$1,207,568,907

Revenues for the County budget come from several sources, of which property taxes represent only 23% of the total.

Licenses, permits & other tax revenues include permit and building fees, delinquent property taxes, electricity franchise fees and utility service taxes.

Intergovernmental revenues consist of state revenue sharing, sales tax and gas taxes.

Charges for services are revenues from park user fees, emergency service fees, fire protection fees, bus fares, airport landing fees, water and sewer fees as well as other types of user fees.

Interest earnings are revenues from funds invested by the County until funds are needed. Reserves generate a significant amount of interest earnings.

Transfers represent funds transferred from one fund to another. A transfer out of a fund is reflected as an expense while a transfer into a fund appears as a revenue.

Another revenue source is fund balance appropriated which is 32% of the total budget and represents carry-over funds from prior fiscal years. A major component of fund balance are reserves which are discussed in the expenditure section of the graphs.

Internal service fund charges are not revenues to the County. They represent charges for services provided within the County governmental unit.

Other sources of funds are special assessments/impact fees and excess fees - constitutional officers.

EXPENDITURES BY CATEGORY  
TOTAL ALL FUNDS \$1,207,568,907

The above graph reflects how funds for the total County budget are spent.

The operating portion of the budget, which includes personnel costs (salaries and benefits) and operating expenditures combined, is 44% of the total budget. Salaries and benefits represent 21% of the total budget.

Capital projects are the expenditures expected during the year for capital improvement projects approved by the Board of County Commissioners.

Debt service expenditures include debt for all funds, but do not include reserves for debt (\$34,539,534) which are part of "other reserves".

Transfers represent funds transferred from one fund to another. A transfer out of a fund is reflected as an expenditure, while a transfer into a fund appears as a revenue.

Reserves for capital projects represent funds which will be allocated during the fiscal year for designated projects. It also includes funds that have been received but will not be spent within the fiscal year as is the case when bond proceeds are used to fund capital projects which take more than one year to complete. Although the bond revenues are received all at one time, it takes several years to spend the funds, in which case, the remaining funds are reserved. Other reserves are for debt service.

## FISCAL YEAR 1989-90 BUDGET

## PALM BEACH COUNTY

EXPENDITURES BY FUND GROUP  
TOTAL ALL FUNDS \$1,207,568,907

The above graph illustrates all countywide expenditures by fund group. The General Fund, which finances the bulk of countywide services and operations, is 16% of the total budget.

Included in the Special Revenue Fund category are Public Safety expenditures for Law Enforcement and Fire/Rescue.

Debt Service includes funds established for the retirement of non-enterprise bond issues.

Capital Projects consist of all non-enterprise capital improvement projects which are of a countywide nature.

Trust and Agency includes Handicap Parking Enforcement.

The Enterprise Funds include the Airports, Water Utilities, CoTran, Southwinds Golf Course and Parking Facilities and are operated with non-tax based dollars.

Internal Service Funds provide services to County operating departments. These include Risk Management and Motor Pool.

EXPENDITURES BY FUNCTION  
TOTAL ALL FUNDS \$1,207,568,907

General Government - These funds are for the general operation of County government.

Economic Environment - These funds are for programs that improve the economic condition of the community and its citizens.

Public Safety - These funds go to programs provided by the County for the safety and security of the public.

Internal Services - These are expenses incurred through services provided by one County agency to another.

Transportation - These funds are used for programs that provide for the safe and adequate flow of vehicles, travelers and pedestrians.

Human Services - These funds pay for programs for the care, treatment and control of human illness, injury or handicap, and for the welfare of the community as a whole.

Physical Environment - These funds pay for water, sewer and environmental programs such as mosquito control and beach restoration.

Transfers, Reserves and Other - Included in this group are funds which are transferred from one County fund to another and funds which are set aside to provide for unforeseen expenses and fund balance.

Culture and Recreation - These funds pay for providing cultural and recreational facilities.

## FISCAL YEAR 1989-90 BUDGET

Palm Beach County's net budgets and net operating budgets for the fiscal years ending September 30, 1985 through 1990 are presented in constant dollars per capita to counter the effects of inflation and growth.

These increases reflect the increased emphasis on providing much needed services and infrastructure and is to be expected for a growing county like Palm Beach County.

The net operating budget increase we are experiencing for the 1989-90 budget year is primarily the result of increased service levels in the areas of law enforcement, court operations and fire rescue.

Growth Related Revenues consist of sales tax, state revenue sharing, and development fees. These revenues show overall increases as the population steadily grows in Palm Beach County.

Sales tax revenue is received through Florida's Local Government Half-Cent Sales Tax Program. The funds are distributed to the cities and counties for use in providing public service needs. Fiscal year 1989-90 receipts are expected to increase by \$3,244,790 or 10.47% over fiscal year 1988-89 estimated revenue.

State Revenue Sharing is a return of the State-collected cigarette and intangible taxes. These funds are distributed based on a formula using population and sales tax collections as factors. It is estimated that Palm Beach County will receive \$15,846,500 in State Revenue Sharing funds for fiscal year 1989-90, a 14.6% increase over fiscal year 1988-89 estimated receipts.

Development fees consist of building permits and zoning fees, roadside vendor permits, fair share impact fees, conditionally-imposed impact fees and contributions from developers.

Constitutional Gas Taxes are levied under section 206.41 of the Florida Statutes. These revenues are used for road construction and maintenance. The Constitutional Gas Tax is collected for all counties by the Florida Department of Revenue (DOR). The DOR then distributes these funds monthly.

The 7th Cent Pourover Tax was established by Florida Statute 206.60. These funds are distributed on the ratio of total taxable gallons sold and delivered to each county, to the total taxable gallons sold in the state. The revenue, used for road and bridge maintenance, is budgeted in the County Transportation Trust Fund.

In addition to these other gas tax revenues, the State provides for a 6-cent local option gas tax. State Statutes call for the revenue to be used for transportation expenditures. In Palm Beach County all six pennies of the local option tax are used to finance the five year road program. The County receives approximately two-thirds of the local option gas tax revenues. The remaining one-third is shared locally between municipalities based on interlocal agreements.

## TOURIST DEVELOPMENT TAXES

<u>ACTUAL</u> <u>1985-86</u>	<u>ACTUAL</u> <u>1986-87</u>	<u>ACTUAL</u> <u>1987-88</u>	<u>ESTIMATED</u> <u>1988-89</u>	<u>BUDGET</u> <u>1989-90</u>
\$3,509,533	\$3,961,145	\$3,906,053	\$5,741,946	\$6,750,000

Tourist Development Taxes are derived from a 2% tax on hotel/motel accommodations. These revenues are collected by the State to be distributed to Palm Beach County.

The Tourist Development Plan calls for these taxes to be split 70% for Category A expenditures which are those utilized to promote and advertise Palm Beach County tourism. The remaining 30% of the revenue is to be used for Category B expenses which provide for cultural and fine arts entertainment, festivals, programs and related activities.

Effective February 1, 1989, the Board of County Commissioners approved the adoption of a third cent of tourist tax. Fifty percent of the money raised by the third cent tax is going to beach restoration. Twenty percent is going to West Palm Beach's efforts to build a convention center. Ten percent is going to Discover Palm Beach County for promotion and advertising. Ten percent is also going to the Sports Authority to help pay the director's salary and establish programs. The remaining ten percent is going to Palm Beach County Council of the Arts for cultural activities.

PALM BEACH COUNTY  
FY 1989-90 BUDGET  
TRANSFERS

Transfers are interfund transactions which constitute revenues or expenditures in the affected individual funds but do not affect revenues or expenditures for the County as a whole. Transfers are made between funds to provide for grant match, operating subsidy, debt service or capital needs in the receiving fund. Transfers can be distinguished from interdepartmental or internal service charges in that transfers do not have an element of compensation for services that the other items have. The activities financed by these transfers are shown as components of the functional expenditures.

## PALM BEACH COUNTY

BUDGETED RESERVES BY TYPE  
TOTAL \$225, 952, 573Balances Forward

Balances Forward represent reserves restricted for funds to be carried forward to FY 1990-91.

Capital Projects

Capital Project reserves represent amounts set aside for capital improvement projects.

Designated

Designated Capital Projects reserves represent amounts for identified projects which are proposed for funding but which have not had specific project budgets established.

Undesignated

Undesignated Capital Projects reserves represent amounts which have been set aside for capital improvements for as yet unspecified projects.

Other Operating Reserves

Other Operating reserves provide funds for a variety of specific potential needs such as disaster clean up, future grant match or disallowed grant costs. The major components of these other reserves are insurance loss reserves.

Debt Service

Debt Service represents funds set aside for future debt service payments in accordance with bond requirements.

Contingency

Contingency reserves represent amounts set aside to meet unanticipated needs that will arise during the normal course of County business. Use of these reserves requires Board approval.

## POPULATION COMPARISON 1982 - 1994

As indicated by the above graph, the overall population for Palm Beach County has increased 23% over the past five years. Growth is not without problems. An expanding population has expanding needs for services such as law enforcement, fire and rescue, human services, transportation and recreation.

Additional people place additional demands on existing facilities creating expanded maintenance needs and ultimately the need for new facilities.

\* Ad valorem taxes for FY 1989-90 are based upon the 1989 Tentative Certification of Taxable Value, multiplied by the millage for FY 1989-90.

The above millage rates are those levied by the Palm Beach County Board of County Commissioners for Countywide and Dependent Taxing Districts. All property owners with taxable properties located within Palm Beach County will pay the Countywide millage. The millages shown for the Dependent Taxing Districts will apply to properties located within those Districts.

A "mill" is one-tenth of a penny, or \$1.00 of ad valorem tax for each \$1,000 of certified taxable values.

A property owner with property assessed at \$82,000 and a homestead exemption of \$25,000 will pay the above Countywide millage, calculated by the following formula:

(Assessed Value - Homestead Exemption) X Millage = Ad Valorem Tax

Countywide Example:

$$(\$82,000 - \$25,000) \times .0051482 = \$ 293.45$$

Note that the above example is calculated on the Countywide rate only and does not take into account the Dependent Taxing Districts.

There are numerous other taxing authorities within Palm Beach County that levy taxes in addition to the Palm Beach County - Board of County Commissioners. Examples of these other taxing authorities include the South Florida Water Management District, the School Board of Palm Beach County, various municipalities and independent taxing districts.

## PALM BEACH COUNTY

TAXING FUND REVENUES BY CATEGORY  
TOTAL \$605,949,140

Taxing fund revenues by category consist of the following funds: The General Fund, Fine & Forfeiture, County Transportation Trust, County Library, Fire/Rescue MSTU's, 7M Courthouse & Jail-I&S, 50M Beach & Parks I&S, 6M Beach Bond-I&S, Criminal Justice Complexes-I&S, 30M Park Development Bond-Debt Service, Capital Outlay, Transportation Improvement Fund, Parks Improvement Fund and Public Buildings Improvement Fund.

Ad Valorem taxes are property taxes computed as a percentage of the value of real and personal property expressed in mills.

Licenses and permits and other taxes are revenue derived from the issuance of local licenses and permits and delinquent ad valorem taxes.

Intergovernmental revenues include all money received from federal, state and other local governments in the form of grants and shared revenues.

Charges for services reflect revenues stemming from charges for current services.

Fines and forfeitures include revenues received from fines and penalties imposed for the commission of statutory offenses and violations of lawful administrative rules and regulations, and for neglect of official duty.

Interest revenues include all interest earned on investments, contracts and notes.

Miscellaneous revenues include all other revenue not included in the aforementioned categories, i.e., rents and royalties, sales and compensation for loss of fixed assets, contributions and donations from private sources, etc.

Balance forward, transfers and other are amounts received by the government which are not additions to assets of the government as a whole. These items include inter-fund transfers and inter-fund reimbursements.

TAXING FUND EXPENDITURES BY CATEGORY  
TOTAL \$605,949,140

Most of the County's operations and services are funded from the taxing funds. Operating costs in the taxing funds comprise the largest portion of expenditures. In addition, a number of capital projects are funded from the taxing funds.

Debt service is for the \$7 Million Courthouse & Jail bonds, \$6 Million Beach Acquisition Bonds, \$50 Million Beach & Park Development Bonds, Criminal Justice Complexes Bond and \$30 Million Park Development Bonds.

Reserves are for balances forward, contingencies, debt service and future capital projects.

Transfers represent the transfer of dollars between funds for debt service operations and capital improvements.

## **Board of County Commissioners Employees per 1,000 Population**

Palm Beach County Board of County Commissioners has a total of 4,747 full and part-time employees budgeted for the 1989-90 fiscal year. The number of employees per 1,000 population is being presented in order to counter the effects of growth. This chart shows the true increases in employees from the 1984-85 fiscal year through the upcoming 1989-90 fiscal year.

Because personnel costs are a major portion of the County's operating budget, changes in the number of employees per 1,000 population have a direct relationship to the cost of providing services. An increase in employees per 1,000 population could indicate that the County is becoming more labor intensive, productivity is declining or service levels are increasing.

Increases in employees per 1,000 population since 1985 have been due to increased service levels. As indicated by the above graph, the Board's employees per 1,000 population remained virtually unchanged from the 1988-89 fiscal year.

The following table shows the population of the United States in 1900, by race and color, and by sex and age. The population of the United States in 1900 was 76,212,367. The population of the United States in 1900, by race and color, was as follows: White, 57,621,954; Colored, 18,590,413. The population of the United States in 1900, by sex and age, was as follows: Male, 38,000,000; Female, 38,212,367. The population of the United States in 1900, by sex and age, was as follows: Male, 38,000,000; Female, 38,212,367.

**FISCAL YEAR 1989-90 BUDGET**

YTHJOO H. A. H. 1979

2. 1979

1979

YTHJOO H. A. H. 1979

DESCRIPTION OF REVENUES BY TYPECURRENT AD VALOREM TAXES

Property taxes computed as a percentage of the value of the real property or personal property.

LICENSES, PERMITS, AND OTHER TAXES

Revenue derived from the issuance of local licenses, permits and other taxes. Licenses include both professional and occupational licenses; permits consist of building and various other permits; other taxes consist of user-type taxes, franchise fees and delinquent ad valorem taxes.

INTER-GOVERNMENTAL REVENUES

This group of accounts includes all revenues received from federal, state and other local governmental sources in the form of grants, shared revenues and payments in lieu of taxes.

CHARGES FOR SERVICES

This series of accounts includes all revenues stemming from charges for current services excluding revenues of internal service funds.

FINES & FORFEITURES

This group of accounts includes revenues received from fines and penalties imposed for the commission of statutory offenses, violations of lawful administrative rules and regulations, and for neglect of official duty. Forfeits include revenues resulting from confiscation of deposits or bonds held as performance guarantees.

MISCELLANEOUS REVENUE

Revenue from sources not otherwise provided for in the preceding categories. This includes interest earnings, rents and royalties, special assessments, sale and compensation for loss of fixed assets, sale of surplus materials and contributions from private sources.

BALANCES FORWARD, TRANSFERS AND OTHER

Amounts received by the County which are not additions to the assets of the government as a whole, although they may be to the receiving fund. These items include inter-fund transfers, inter-fund reimbursements except the receipts of an internal service fund. Also includes fund balances carried over from the previous year.

INTRA-GOVERNMENTAL REVENUES

Those revenues derived from goods and services furnished by central service agencies of the County to other departments and funds.

## PALM BEACH COUNTY

DESCRIPTION OF EXPENDITURES BY PROGRAMGENERAL GOVERNMENT

A major class of services provided by the legislative, judicial and administrative branches of County government as a whole. This classification encompasses the Board of County Commissioners, administration (including central service staff departments), auditing, property appraiser, tax collector, finance, legal, planning, judicial, supervisor of elections, and various other general government services.

PUBLIC SAFETY

A major category of services provided by the County for the security of persons and property. This category includes law enforcement, fire control, detention and/or correction, protective inspections, emergency and disaster relief services, ambulance and rescue services, medical examiner, consumer affairs and all other costs primarily related to public safety.

PHYSICAL ENVIRONMENT  
AND UTILITIES

The cost of services provided by the County for the primary purpose of achieving a satisfactory living environment by controlling and utilizing elements of the environment. Services include water and sewage, mosquito and aquatic weed control, sand transfer and beach restoration, soil conservation and agriculture, and all other services related to the physical environment.

TRANSPORTATION

Costs of services provided by the County for the safe and adequate flow of vehicles, travelers and pedestrians. This category includes the County Transportation Trust, the Transportation Authority, the Department of Airports, and other accounts established for the construction and maintenance of all transportation related facilities.

ECONOMIC ENVIRONMENT

The cost of providing services which develop and improve the economic condition of the community and its citizens. Services included are industry development, veterans services, housing and community development, and all other costs primarily related to economic environment.

**HEALTH AND HUMAN  
SERVICES**

The cost of providing services for the care, treatment and control of human illness, injury or handicap, and for the welfare of the community as a whole and its individuals. Expenditures classified under this function include hospital services, health care, animal regulation, homes for the infirm, mental health, welfare retardation, and other human services.

**CULTURE AND  
RECREATION**

The cost of providing and maintaining cultural and recreational facilities and activities for the benefit of citizens and visitors. This category includes libraries, parks and related programs, cultural services, special events and special recreational facilities.

**INTERNAL SERVICES**

Those expenses incurred exclusively by internal service funds in providing goods and services to user departments or agencies. This category includes motor pool, employee health insurance, casualty self-insurance and workers' compensation.

**TRANSFERS, RESERVES  
AND OTHER**

This is a basic account category to provide for disbursements which are not classified as expenditures. Included in this group are inter-fund transfers, reserves, redemption of long and short-term debts and transfers between the Board of County Commissioners and Constitutional Officers.

**PALM BEACH COUNTY****DESCRIPTION OF EXPENDITURES BY OBJECT****PERSONAL SERVICES**

Expense for salaries, wages and related employee benefits provided for all persons employed by the County whether on full-time, part-time, temporary or seasonal basis. Employee benefits include employer contributions to a retirement system, social security, insurance, workers' compensation, unemployment compensation insurance and any other similar direct employee benefits.

**OPERATING EXPENSES**

Includes expenditures for goods and services which primarily benefit the current period and are not defined as personal services or capital outlays. Examples include professional services, accounting and auditing, other contractual services, travel and per diem, communications, utilities, rentals and leases, repair and maintenance, promotional activities, office supplies, operating supplies, road material and supplies, books, publications, subscriptions, memberships, and other current charges not otherwise classified.

**CAPITAL OUTLAY**

Outlays for the acquisition of or addition to fixed assets. This would include land, buildings, improvements other than buildings, machinery and equipment, and construction in progress.

**DEBT SERVICE**

Outlays for debt service purposes including principal, interest and other debt service costs.

**GRANTS AND AIDS**

Includes all grants, subsidies and contributions to other governmental agencies and private organizations excluding transfers to agencies within the same governmental entity.

**NON-OPERATING**

Includes all transfers between funds which do not represent operating expenditures including transfers between the Board of County Commissioners, the Constitutional Officers and other taxing authorities. This category also includes all reserves.

BUDGET PREPARATION AND ADOPTION TIMETABLE

The budget process and the levy of ad valorem taxes are governed by the Florida Statutes Chapters 129 and 200. These Chapters address the budget timetable from the point of the initial presentation of a proposed budget and the taxable value to the governing body. The timetable, public advertising requirements and two public hearings to adopt the budget and levy ad valorem taxes are statutory requirements. The following is an outline of the budget process employed by Palm Beach County for the preparation of the 1989-90 budget.

	<u>Deadline</u>
Narrative Instructions mailed (Functions, Goals, Accomplishments)	1/13/89
Capital Projects instructions mailed	1/31/89
Call for 1989-90 Budget and Budget Manual given to departments	2/10/89
Training Sessions	2/20-3/3/89
Departmental 5-Year requests for Capital Projects to OFMB and Engineering	3/15/89
Narratives due	3/15/89
<u>Risk Management and Motor Pool budgets due in Budget Office</u>	<u>3/15/89</u>
